TRAUMA NOVA SCOTIA

WEBINAR SERIES

TNS Webinar Series is an accredited 1 hour presentation from experts on cutting edge topics related to trauma care and the trauma healthcare professional.

Taking a deep-dive into the common, and not so common areas of trauma care through the continuum of pre-Hospital, ED, Inpatient and Community environments.

Open to ALL trauma-care professionals.

THE GOAL?

- To provide education to all trauma clinicians across NS and beyond
- To allow for an interactive discussion including space for questions to be answered, between presenter and attendees
- To strengthen trauma education to improve care and in turn improve the outcomes of trauma patients!

800+

PARTICIPANT FEEDBACK

"Excellent coverage of this important topic - lots to think about and use during any trauma case. Thank you." - NSH Emergency Physician

"Really enjoyed the presentation. It was insightful, authentic and provided tangible examples of things to start implementing into daily practice." - NSH Clinical Nurse Educator

"This session was great. I am glad it was open to all NSH staff. As a physiotherapist I found it very interesting and very applicable to my work setting." - NSH Physiotherapist
