

Trauma Nova Scotia Grand Rounds 2025-2026

Overall Program Objectives

Integrate current evidence and best practices in trauma care to optimize patient outcomes, specifically within the Nova Scotia context.

- *CanMEDS Role: Medical Expert*

Critically appraise and apply emerging trends and research in trauma medicine to enhance clinical decision-making.

- *CanMEDS Role: Scholar*

Collaborate effectively across disciplines (physicians, nurses, paramedics, and allied health) to strengthen teamwork and communication in trauma care delivery.

- *CanMEDS Role: Collaborator*

Demonstrate leadership in advancing trauma care practices through participation in knowledge-sharing.

- *CanMEDS Role: Leader*

Communicate complex trauma concepts clearly and effectively to colleagues, fostering shared understanding in interdisciplinary settings.

- *CanMEDS Role: Communicator*

Advocate for trauma system improvements and patient-centered care by addressing local needs and supporting equitable access to high-quality trauma services across Nova Scotia.

- *CanMEDS Role: Health Advocate*
